The Power of DNA

Lee brings an addendum to the latest book, "The Twelve Layers of DNA" with some hard physics and revelations about what actually might be in our DNA. This is what people have been waiting to hear.

What's happening on earth?

WHAT IS GOING ON?!?

Do changing weather patterns
signal something unexpected?

Could human evolution be related
to earth changes? Is there proof?

Why are there so many
revolutions all over the globe?

Is humanity evolving or is it
going down the tubes?

Did Kryon predict
our economic woes?

What is a "time fractal," anyway?
Does it affect you spiritually?
